

Sinclair Broadcasting's Anti-Kerry special is just another example of the incredible lack of integrity and honesty currently occurring in the T.V. news media. This puts Sinclair Broadcasting in the same class as the Fox News Broadcasting Network. Corporations have taken over the U.S. to the point that the average U.S. citizen no longer knows who owns what and whose opinions are truly being aired. Where is the anti-Bush special? Do the Republicans own everything? Our country is going down the drain.
